The evolution of Computer Technology and the developing Frauds in the Information Technology and Telecom Sectors were considered as main reasons for the development of this course. As a result, an innovative effort was developed to introduce the computer forensics and its best practicing skills to take challenging positions in the Police Departments and in any other fields related to Information Technology. The program thus aims at imparting the knowledge of Cyber laws and Advanced Information Security and Cryptology and offers comprehensive knowledge with equal emphasis on theory & practice. Thus the challenge is to design a curriculum that identifies the core competence in the industry. The alternative mode of learning through Distance Education learning was introduced to prove as a major contributing factor in its mission to create supply quality and competitive professionals for the safety of the IT and Telecom industry.

Target Group of Learners

The candidates who are interested in the safe guarding the information systems for various organizations such as banks, hotels, tourism, transport etc. and possessing the main thrust in detecting the frauds in the Information Technology and Telecom Sectors are the main target groups. The candidates having the interest to gain knowledge & skills required to develop the knowledge of Advanced Information Security and Cryptology, Information Security Audit and maintain the safety and security of high quality software programmes are also the target groups.

Quality Assurance

Study materials prepared under SLM are given to the learners. The Compulsory Theory and Practical classes are arranged for 20 days for the entire duration of the course and the experienced faculties from the departments and various affiliated colleges and Industrial experienced persons are used as the resource persons for the classes. Further, students are given access to IDE library and main library of the University.

Programme Content:

Sem	Course Component	Title of the Paper	Credits	Max Marks		Total Marks
				INT	EXT	
SEMESTER I						
I	Core Paper I	Introduction to Cyber Criminology	4	20	80	100
	Core Paper II	Networking and Communication Protocols	4	20	80	100
	Core Paper III	Introduction to Information Security	4	20	80	100
	Core Paper IV	IT Infrastructure and Cloud Computing	4	20	80	100
	Elective I	Forms of Cyber Crimes	3	20	80	100

SEMESTER II						
II	Core Paper V	Network Security and Cryptography	4	20	80	100
	Core Paper VI	Basics of Cyber Forensics	4	20	80	100
	Core Paper VII	IT and Telecom Frauds & Countermeasures	4	20	80	100
	Core Paper VIII	Practicals- I – (Networking and Information Security)	4	40	60	100
	Elective II	BFSI Frauds & Countermeasures	3	80	20	100
	Elective III	Data Privacy	3	80	20	100

SEMESTER III						
				INT	EXT	
III	Core Paper 1X	Database Management Security	4	20	80	100
	Core Paper X	Advanced Cyber Forensics	4	20	80	100
	Core Paper XI	Advanced Information Security	4	20	80	100
	Core Paper XII	Practicals – II (Cyber Forensics)	4	40	60	100
	Elective IV	Cyber Laws & Intellectual Property Rights	3	20	80	100

SEMESTER IV						
	Core Paper XIII	Application Security	4	20	80	100
IV	Core Paper XIV	Governance, Risk & Compliance	4	20	80	100
	Core Paper XV	Business Continuity & Disaster Recovery Management	4	20	80	100
	Core Paper	Security Testing	4	20	80	100

		Credits
Core Paper	14 x 4	56
Core Practical	2 x 4	8
Elective	4 x 3	12
Total		76

M.SC. MATHEMATICS

Eligibility Conditions

Candidates who have passed the B.Sc. (Regular Stream (10 + 2 + 3) Pattern) Degree Examination in Mathematics [or] B.Sc. Applied Sciences [or] B.Sc. Physics / Chemistry / B.E./B.Tech with Mathematics of this University [or] examinations of other Universities accepted as equivalent thereto by this University are eligible for admission.

Duration of the Course : 2 years

Objectives :

- To provide a foundation to the learners in discrete and continuous Mathematics
- To develop Mathematical attitude towards problem formulation and solving.
- To impart Programming skill in a higher level and computer language
- To facilitate the learners to acquire knowledge on Java Programming

Target Group of Learners

The persons who aspire to become teachers, computer analysts and who prefer to appear for the competitive examinations conducted for the recruitment to public sector undertakings are the important target groups of this course.

Quality Assurance

The Institute of Distance Education provides study materials prepared under Self Learning Mode [SLM] to all the learners. The Practical classes and exams are conducted periodically to the learners. Experienced Faculties of the University and other affiliated colleges are engaged for conducting PCP classes and practical exams. Further, students are given access to IDE Library and the Main Library of the University.

Programme Content and Design:

SEMESTER - I

COURSE COMPONENT	SUBJECTS	CREDIT	MAX MARKS		TOTAL
			INT	EXT	
Core Paper - I	Algebra - I	4	20	80	100
Core Paper – II	Real Analysis - I	4	20	80	100
Core Paper - III	Ordinary Differential Equations	4	20	80	100
Core Paper – IV	Graph Theory	4	20	80	100
Elective Paper - I	Discrete Mathematics	3	20	80	100

SEMESTER II

Core Paper - V	Algebra - II	4	20	80	100
Core Paper – VI	Real Analysis – II	4	20	80	100
Core Paper - VII	Partial Differential Equations	4	20	80	100
Core Paper – VIII	Numerical Analysis	4	20	80	100
Elective Paper - II	Java	3	20	80	100

SEMESTER-III

Core Paper - IX	Complex Analysis - I	4	20	80	100
Core Paper – X	Topology	4	20	80	100
Core Paper - XI	Operations Research	4	20	80	100
Core Paper – XII	Probability Theory	4	20	80	100
Elective Paper - III	Number Theory Cryptography	3	20	80	100

SEMESTER-IV

Core Paper - XIII	Complex Analysis - II	4	20	80	100
Core Paper – XIV	Differential Geometry	4	20	80	100
Core Paper - XV	Functional Analysis	4	20	80	100
Core Paper – XVI	Mechanics	4	20	80	100
Elective Paper - IV	Mathematical Statistics	3	20	80	100

		CREDITS
Core Paper	16 X 4	64
Elective	4 X 3	12
TOTAL		76

M.SC. PSYCHOLOGY

Eligibility Conditions

Candidates who have passed the B.A. / B.Sc. Degree Examination with Psychology as the Main [or] any other Universities recognised by UGC/AIU [or] passed an examination of other University recognised and accepted as equivalent thereto by the University of Madras are eligible for admission.

Duration of the Course : 2 years

Objectives :

- To impart knowledge to the learners on the basic Psychology, Cognitive Psychology, Biological Psychology, Psycho Pathology and Counselling Psychology
- To offer the knowledge on the application of Psychology in the day to day situation
- To inculcate human skills for developing better human relations
- To develop professional competence among the learners in the field of Psychology.

Target Group of Learners

The persons who aspire to become Social workers, Attendants and who prefer to apply their knowledge in their Social Profession and employees of the Hospitals are the important target groups of this course.

Quality Assurance

The Institute of Distance Education provides study materials prepared under Self Learning Mode [SLM] to all the learners. The Compulsory Personal Contact Programme classes are conducted periodically for a period of 20 days for the entire course duration to the learners. Experienced Faculties of the University and other affiliated colleges are engaged for conducting PCP classes. Further, students are given access to IDE Library and the Main Library of the University.

M.SC. [INFORMATION TECHNOLOGY]

Eligibility Conditions

A Candidate who has passed any Bachelor's degree of not less than three years duration under 10+2+3 pattern having studied Mathematics or Statistics or Business Mathematics or Business Statistics or Mathematical Physics as Main or Allied subject from University of Madras or from any other University accepted as equivalent thereto.

Duration of the Course: 2 years

Programme Objective

The objective & mission is to develop and supply competitive IT professionals to the human resource for software industries located all over the world. The evolution of computer technology was considered as a boon to mankind due to its general purpose supportive capabilities. As a result, an innovative effort was developed to introduce the computing skills from a young age in human beings to take challenging positions like System analysts, System designers, Programmers & IT managers in any field related to Information Technology. The program thus aims at imparting comprehensive knowledge with equal emphasis on theory & practice. Thus the challenge is to design a curriculum that identifies the core competence in the industry.

Target Group of Learners

The candidates who are interested in the designing information systems for various organizations such as banks, hotels, tourism, transport etc. and possessing the main thrust in computing, business functioning and operation of sufficient mathematical tools relevant to Information Technology are the main target groups. The candidates having the interest to gain knowledge & skills required to develop, test and maintain high quality software programmes are also the target groups.

Quality Assurance

Study materials prepared under SLM are given to the learners. The Compulsory Theory and Practical classes are arranged for 48 days for the entire duration of the course and the experienced faculties from the departments and various affiliated colleges are used as the resource persons for the classes. Further, students are given access to IDE library and main library of the University.

Programme Content

SEMESTER I

COURSE COMPONENT	SUBJECTS	CREDITS	MAX MARKS		TOTAL
			INT	EXT	
Core Paper - I	C++ and Data Structures	4	20	80	100
Core Paper – II	Computer Architecture	4	20	80	100
Core Paper - III	Data Base Management Systems	4	20	80	100
Core Paper – IV	Practical – I: Data Structures Lab. Using C ++	2	40	60	100
Core Paper – V	Practical – II: RDBMS Lab.	2	40	60	100
Elective – I	Visual Programming	3	20	80	100

SEMESTER II

Core Paper – VI	Operating Systems	4	20	80	100
Core Paper – VII	Programming in Java	4	20	80	100
Core Paper – VIII	Practical – III: Java Programming Lab	2	40	60	100
Elective – II	Data Warehousing and data Mining	3	20	80	100
Elective – III	Dot Net Programming	3	20	80	100
Elective – IV	Practical – IV: Dot Net Programming Lab.	2	40	60	100

SEMESTER III

Core Paper - IX	Computer Networks	4	20	80	100
Core Paper – X	Design and Analysis of Algorithms	4	20	80	100
Core Paper - XI	Advanced Java Programming	4	20	80	100
Core Paper - XII	Information Security	4	20	80	100
Core Paper – XIII	Practical – V: Advanced Java Lab.	2	40	60	100
Core Paper - XIV	Practical – VI: Mini Project	2	40	60	100
Elective -V	Mobile Computing	3	20	80	100

SEMESTER IV

Core Paper - XV	Project & Viva – voce	16	20	60+20	100
-----------------	-----------------------	----	----	-------	-----

		CREDITS
Core Paper	9 X 4	36
Core Practical	5X 2	10
Elective	4 X 3	12
Elective Practical	1 X 2	2
Project	1 X 16	16
TOTAL		76

Requirements with regard to Project Report

For all subject the passing requirement is as follows : i) candidate who secures not less than 50% of marks in University Examination (U.E.) of each theory & practical, and Project work minimum 50% each in dissertation and Viva-voce examination, shall be declared to have passed in the respective subject. b) A candidate who passes in all subjects and in the project work within the maximum period of five years reckoned from the date of admission to the course shall be declared to have qualified for the degree.
